

ELKA Magnetic lock for barrier boom

High-performance vandalism protection via electromagnet on the barrier boom with 2,500N magnetic force. Including aluminum fixed support with rubber-mounted anchor plate. Wiring is done through the barrier boom. Can also be used as a retrofit kit for existing barrier systems.

- ✓ Incl. fixed support made of aluminium (height adjustable 150mm)
- ✓ Max. magnetic force 2,500N
- ✓ Wiring through the barrier boom
(a connection cable under the roadway is not required)
- ✓ Rubber-mounted anchor plate for optimal alignment to the magnets
- ✓ Housing for magnets protects from scratches on barrier boom and fixed support

Set including electromagnet, 10m supply cable, cable protection tube, 2x connection clamps, 2x wire end ferrules and fixed support with rubber-mounted anchor plate.
