AND SIMPLE INSTALLATION**

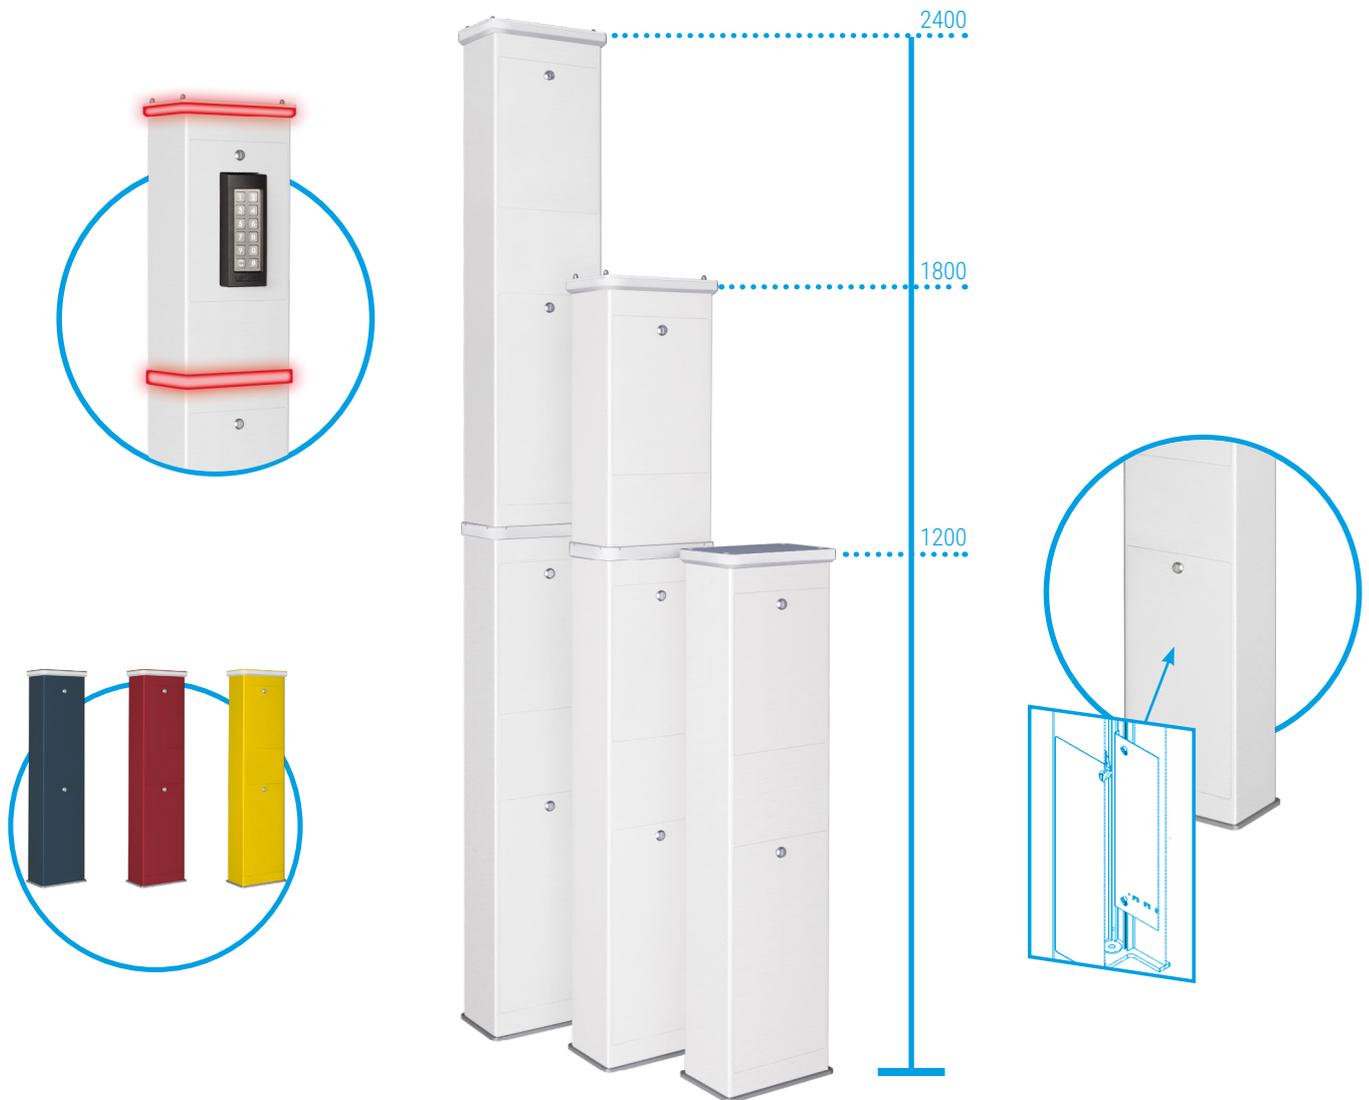

**ROBUST, DURABLE
AND RELIABLE**

ELKA

Aluminum housing MS

The high-quality aluminum housing offers plenty of space for built-in components and optional LED lighting. Additional service doors and an integrated mounting plate facilitate on-site installation. Three different heights offer the optimum solution for every application.

Individual configurations possible:

- **Optional LED lighting**

In the cover and intermediate element.
Warm white, red, green, blue or cold white.

- **Special colors**

The housing is blank as standard. All components can be painted in all RAL special colors on request.

- **Installation service**

In addition to ELKA installation items, we integrate components supplied ex works on request - or manufacture suitable cut-outs for installation on site.

- **Subsequent increase**

The MS 1200 housing can be subsequently extended by 600mm or 1,200mm using a housing extension.

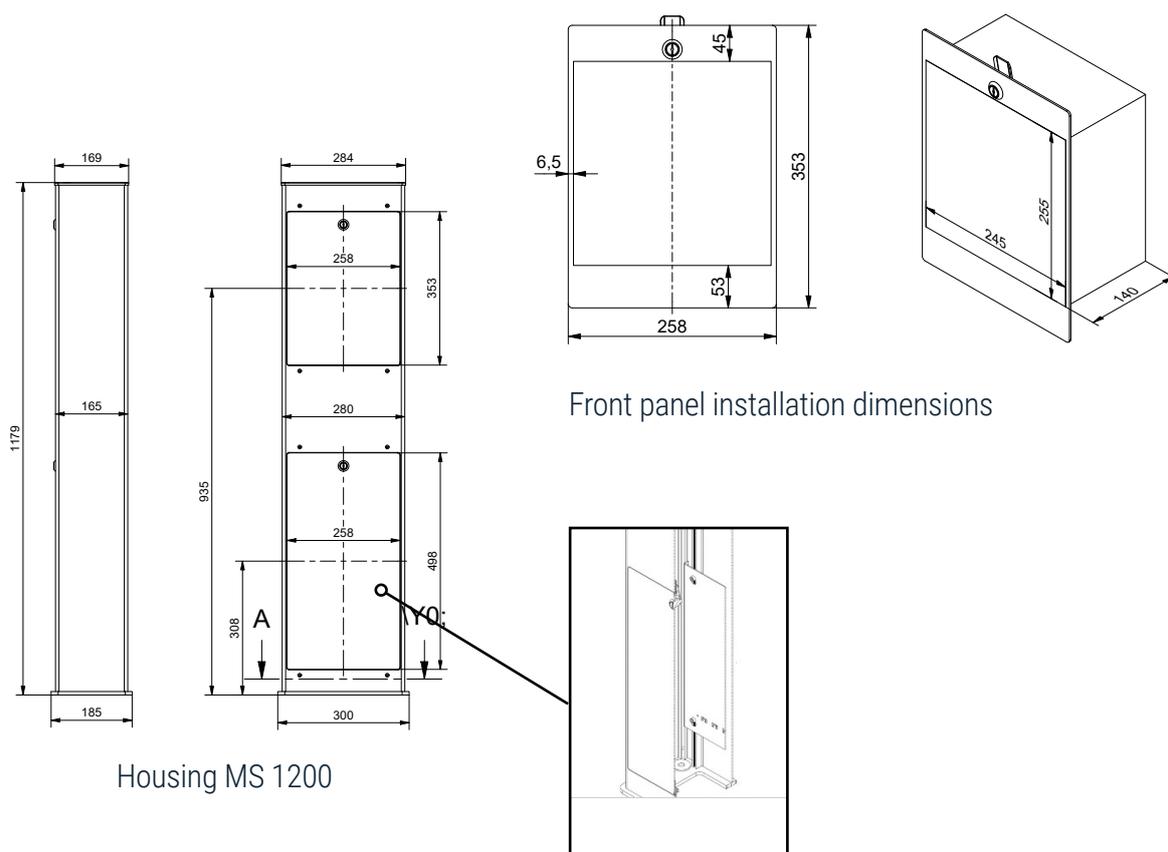

Intermediate sizes on request.

Example of application
